

# Hooton - Barden Family Bible

24 April 2010

Dear Lana,

Attached is my file from the Hooton - Barden Family Bible. I am sure that there were missing pages because the binding had come apart and pages were loose. It was difficult to decipher what was written but I did the best that I could. The Bible was published in 1855 and had deteriorated in the last 155 years since no one had adequately preserved it.

My great-grandparents were George Washington Barden and Orender Haley Hooton. My grandmother was Minnie Elizabeth Barden. My mother passed the bible to me before she died 20 years ago and my oldest daughter has it now. I asked her if it was OK for you to see it and make copies and she said certainly.

I don't know anything about Ambrose Nelson or how his name got in the bible and I don't know anyone to ask. As you can see from my file, there are gaps in time which probably relate to the missing pages. I don't know why there were no entries after 1917 and no blank pages for making more entries.
