

### Griffiths Valuation of Ireland

1845 - 1864 Griffiths Valuation was supervised by Sir Richard Griffiths as Ireland's Commissioner of Valuation. The Valuation began in 1845 in the extreme southern Irish counties where they mapped the land and registered not only the property owner, but the property occupier as well. It was from this Valuation that early Ordnance Survey Maps were created. It ended in the north in 1864. The names are indexed by County in the first section, and are sorted in alphabetical order in the second section.

The names below are indexed by County in the first section, and are sorted in alphabetical order in the second section. These data were extracted from <http://www.failteromhat.com/griffiths.htm>.
