Hello Carol, I came upon this genology information after I typed in my dad's name. This is so very interesting to me. My name is Karen Daellenbach Morgan. I am the daughter of Arnold Daellenbach and the granddaughter of Fred Daellenbach and Martha Steinke. I do not have any brothers or sisters. My Aunts luella and leona have passed away. Lorraine and Margaret are living. My dad died in February 1960. He was only 42. Another Aunt Nita died when she was 47. I never knew a Martha. She may have died in infancy. Thought you might be interested. Karen Morgan
