? Which Test For What Purpose ?

Answers from Emily Aulicino.

Each of the three tests are unique unto themselves and each is designed for a specific purpose. None of them can take the place of another. The Ydna and mtDNA uses STRs; the FF uses SNPs and for that reason one can't substitute for the other.

If a tester wants to connect with others for his surname anywhere in genealogical time, then take the Y. The Y chromosome is handed down virtually unchanged from father to son since mankind began. This is testing along the all male line (father's father, etc) or the top line of a pedigree chart where the male tester is number one on that chart. The small changes allows us to put people into "family groups." This test is only for males.

If a tester wants to learn more about their mother's all female line (bottom line of the pedigree chart where either a male or female is number one on that chart) and their most ancient ancestry, then take the mtDNA. The mitochondria is handed down virtually unchanged from mother to her children since womankind began. The small changes allows us to put people into groups, but due to it's slow mutation those matches can be before genealogical time. This test is best used for specific problems (see SUCCESS STORIES at www.isogg.org). This test is for both males and females.

If a tester wants to find cousins on all those lines of lineage in between, then test with Family Finder (FF). This test is for both males and females. The FF tests autosomal markers where the other two do not. As DNA is inherited from both parents each generation and as some of it is dropped in each generation to make room for the new parent, we receive less and less of our older ancestors' DNA in each generation. This is the reason why this test does not go back to matches 500-600 or more years ago. The DNA segments from older ancestors are to small to be accurately matching people. This is the reason for the matches mathematically connecting 5th cousins. However, it is possible to find 10th cousins as I have.

To find matches using FF the genealogist really needs to do a wide path back through his/her ancestors. That is, the siblings of all the ancestors should be researched to find those spouses, children and often grand children, etc. The more information one has the easier to find the common ancestor in any match for this test. Think of your great-great-great grandparents and ALL their descendants....those are the cousins who could match you in Family Finder.

The FF is also good for persons who have been adopted as it can give you cousins within a more reasonable time period. If one suspects a unique birth situation along the male line, such as an adoption or illegitimacy, then the Ydna test, if possible, is a good indicator of the correct surname.

I'll be writing more to Newbies about NPEs on my blog in the near future, and there are some articles on the basics there. Start from the beginning of the archives. There is also an article on how to choose the best testing company as I compared the three major ones and their offerings.

A FEW GOOD HINTS

[Copied from the Hawkins Heritage Newsletter #21, April 1994 (my underlining).]

Wanita Lucas sent the following from the Decatur, IL Genealogical Society newsletter.

In looking at deeds, make note of the signatures found in most deeds in the lower left-hand corner. There are usually two to four witnesses, with the first one always from the husband's side. "The next is always from the wife's side." The newsletter says that this is to protect the 1/3 dower right, which was the law.

In mortgages before and during the 19th century, tradition was that the father either covered the loan or carried the note for his son-in-law. If you don't know the wife's maiden name but do know the husband's name, discover to whom they made their mortgage payment. "About 70% of the time it will be her father." - ISGS Newsletter, March/April 1991

For additional information, contact Dot Hawkins, mom407dot1@bellsouth.net.

There is no question to the lineage down from Benjamin Hawkins of Buncombe County, NC. My son, a gggg-grandson, owns land purchased in 1815 by Benjamin's son, John, which has passed down through the family by inheritance and some sold off to there's only 3.75Acres left that he inherited from his father (my husband). That title is clear all the way back to John and the Family Bible of Benjamin Franklin Hawkins (given to the Pack Memorial Library in Asheville, NC by my husband and I) lists John as the second child and first son of Benjamin Hawkins. Through additional court records and estate records this lineage is substantiated.

We believe that Benjamin was the son of William and Mary Hawkins of Bedford/Campbell county VA. This has not been proven, but William's will names his sons all of whom bear the same names as Benjamin's, including the rather rare names of Littleberry and also Robert.

You do not have to be a participant to send material for this family group. Old pictures, family stories, unanswered questions, brick walls, whatever would be of interest to our line, to your branch of the line, or information on a particular event that might have been an influencing factor in the history of an ancestor (s). If you send pictures please scan at 300 dpi, and furnish the who/when/where/why to the extent you can.

Some sharing would seem appropriate. I continue to put out the information that I have to you, and am receiving nothing. If you have information on your branch that I am not showing - then I do not have it. We need some handing on here. How about corrections? Do I have it all perfect? How about some old Hawkins pictures?

Correction [thanks to Beverley]: In the last newsletter I included an obituary on Elizabeth A. (Hawkins) McKinnis, a descendent of Benjamin Hawkins & Martha Hollingswell [should have read Hollingsworth].

My branch of this line, from Amos & Ann (Milhous), will gather for our *Hawkins Rebellion* on Sunday, 27 June. The location is the Tipton, IN park (south side), starting at 1200 with a pitch-in dinner. Join us if you can.

This month I am listing the descendants of James Hawkins, the sixth son of James and Martha (Hollowell). In June I'll follow up with the proofs that I have on James. In July and the following months, we'll present information on the remaining brothers, Amos and William. Please send me any information that you can on Amos and William to help me with this?

_1 John Hawkins, b ca 1600 –d 1675; will probated 17 March 1676 Anne Arundel Co, MD. Wife's name is Mary, who died prior to their daughter's marriage in 1690 to Charles Gorsuch on Mar. 12th mo. 1690, s/o John and Ann Gosidge of the Kingdom of England. They were married at William Richardson's house in Anne Arundel Co, MD, a well known Quaker. John Hawkins dictated his will at the home of William Richardson in 1670. John Hawkins was a mariner and a

Quaker who plied his trade from New England (Mass) to Maryland until his death in 1675. In the Provincial Records of Maryland he is mentioned as trying to be paid by William Brenton, merchant, who was in Mass. at the time. Brenton later crossed the Bay and became the Governor of Rhode Island in 1660. John Hawkins had delivered goods to him. John Hawkins is mentioned as being on Manhattan in New York at Foulston's Creek (Oyster Bay) as well at his home in Anne Arundel Co MD. The name of his "barke" was the "Providence of Maryland".

..... 2 Matthew Hawkins, b ca 1668 –will probated 5 May 1705 in Baltimore Co MD

..... + Anne Parrish, d/o Edward Parrish, Quaker, b ca 1640 in England. He died 1679 in Anne Arundel Co MD and it is widely said he is buried at West River Hundred. There is no record of burial. He was transported by William Piper of the Isle of Kent on 26 Nov 1662. Anne and Mary are sisters who, one at the death of the other, married Matthew Hawkins mentioned here. Children of Edward and Clare Parrish are: Edward, John, Anne, Mary and William. I have more information on these children, if needed.

VA HAWKINS TIME LINE:

Benjamin Hawkins b. unk d. bef. 20 Jul 1745

Amelia Co. VA (Court Order Book)

There is no evidence suggesting if this B. Hawkins is related or not to the Hawkins Family of my ancestors except for location (Amelia Co. VA) and another Benj. Hawkins who protested the Will.

Benjamin Hawkins b. ca 1705 d. bef. Nov 1771

Prince Edward Co. VA (PE Ct Order Bo 5 p. 7)

Benj. and Mary Hawkins of Goochland Co. VA bought land and witnessed transactions in Goochland Co. VA from Robert Wade (possible father of Mary) ((1736-42 Goochland Co. Wills & Deeds p. 231

Benj. and Mary Hawkins sold the land bought from Robt. Wade in Dec 1743 – Now shown as Benj. and Mary Hawkins of Amelia Co. VA. (Goochland Co. Deed Bo 4 p. 279)

Mary Hawkins, wife of Benj. petitioned the Court as administratrix of the estate of Benj. Hawkins, dec'd Jesse Owen made bond

Benj. Hawkins served in Amelia Co. VA during the 20 Jul 1745 Court Session as a Juror (Amelia Co. VA Court Order Bo. 1; 1735-46)

Benj. Hawkins witnessed and completed land transactions in Amelia/Prince Edward Cos. VA from 1743 to 1771(?).

Benjamin Hawkins b. ca 1742 d. 2 May 1777

Prince Edward Co. VA (Southside VA vol/p unk)
copy of Will from Library of VA

First mention of Benjamin Hawkins Junior was in a land transaction dated 21 Mar 1763 where he is described as Benjamin Hawkins jr. of the Parish of St. Patrick in Prince Edward Co. – 1st. known purchased. (PE Deed Bo. 2 p. 151)

Benj. Hawkins conducted several land transactions and witnessed several from 1763 to 1777(?)

Dealings from 1763 to 1771 are questionable as to which Benj. Hawkins was involved. The JR. was only used the one time as far as research has found.

Birth date is based on Benj. being 21 in Mar 1763

His Will names only wife Amey and mentions the Hawkins' sons as well as son-in-law Owen Smith.

Another researcher states that the children were "named in a subsequent Chancery Suit. (A/WB1-11)"

The above research lists, Martha m 1780(?), John, _____ Smith, Brackett m 1805, William, ROBERT, and Benjamin II ---(_____ Smith is possibly either Kitura or Rosemund(?) one married Owen Smith)

William and ROBERT Hawkins are named as "orphans of Benjamin Hawkins dec'd to be bound to John Fowlkes and David Poiner 25 Jul 1782"

Hawkins Family Group-17

(Group Leader is Robert Scott Hawkins)

Participant Russell Kenneth Hawkins has died at age 95.

Ocala, FL -- Russell Kenneth Hawkins, age 95, died May 4, 2010 at home. Before retirement he was the Purchasing Manager for Grason-Stadler, Inc. an electronics firm in Massachusetts (1961- 1975). He was known to many as the owner/operator of the Berlin General Store in Berlin, Massachusetts from 1955 to 1961. For many years, he also served as Tax Collector and as a School Building Committee member for the Town of Berlin. A lifetime Red Sox fan, he lived primarily in Berlin, MA (1945-1975), Palm City, FL (1976-1995) and New Port Richey, FL (1995-2005), before moving to Ocala.

The son of Earl Patten Hawkins and Agnes Miller, he was preceded in death by his brother Earl Patten Hawkins, Jr., sister Ethel Yeaw, and his wife, Florence Layfield Hawkins, who died in 2004, after 64 years of marriage. He is survived by four children: Robert R. Hawkins of High Springs, Florida; David R. Hawkins of Dahlonge, Georgia; Deborah Hawkins of Richmond, Virginia; and Nan P. Borge of Westerly, Rhode Island; as well as eleven grandchildren, six great-grandchildren, and one great-great-granddaughter.

Russell was the great-grandson of Joseph C. Miller, who arrived in Topeka, Kansas 5 months after it was founded and who was instrumental in its settlement and growth.

A memorial service will be held at the First Parish Church of Berlin at 2:00 pm on Sunday May 30, 2010.

Memorial donations may be made to the Berlin Art and Historical Society (PO Box 35, Berlin, MA 01503) for the Bullard House Fund.

We offer our deepest sympathy to his family. The picture, with his wife Florence, was taken in November 1989.

If you maintain a web site with Hawkins information, please add a link to our Hawkins DNA Project. If you maintain a website that relates to any of our Hawkins DNA lines, please advise, and I'll list a link for it on our site.

If you know someone that would like to be on the Hawkins project information mailing list, please send me their name and email and I'll add them. Anyone that desires not to be on the list should request removal.

Please advise us of any planned Hawkins reunions. We would like to list them indicating the patriarch, place, dates, and any other special information. Consider collecting donations to have some of the cousins in your group tested. Maybe you have the perfect paper records, but the mutations that occur in the separate lines need to be identified now for succeeding generations (and just maybe, your paper records are not as solid as you assume).

If you have tested with someone other than Family Tree DNA please contact me about also participating in our Hawkins Project.
