## Notes

In Dr. Holland's book pg. 95 it says: When John Warren was three or four years old his father transported 13 indentured servants into Virginia from England and laid claim to 650 acres of land on the edge of Mock Jack Bay, north of the York River in the present Gloucester County. William applied for a patent on the large tract and in 1642 received the certifying document from Governor William Berkeley, who had first occupied the governor's chair the year before.

William had arrived in the colony sometime before April 1633 bringing with him, we believe Nathaniel Warren who probably was a son or nephew. We postulate William came to Virginia in the middle to late 1620 as an adventurer paying his own and Nathaniel shipboard fares across the Atlantic possibly aboard a ship named "The Ark and The Dove". He may have been accompanied by a brother, Thomas Warren who settled further up the James River in Charles City Co.Va. per Dr Holland book.

William Warren, came to Va. cc 1625 and who was probably killed there during an Indian attack in 1644
